

# DawsonHasAWebsite

DawsonHasAWebsite is platform for me to work on projects and/or upload and utilize a website as a general portfolio type platform.

DawsonHasAWebsite provides me with the ability to use a website as a platform, to first show that I can create and host a website. But also, to provide myself with the platform in which I can then utilize the website in ways that would then benefit myself.

Currently the website is described as follows: Currently being used as a general portfolio/resume host as well as a gallery for some media I have created.

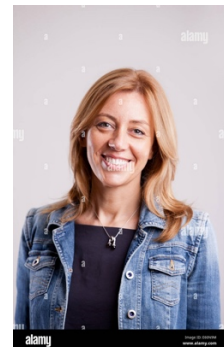

## Personas

**James Hunt**  
Prospective Employer

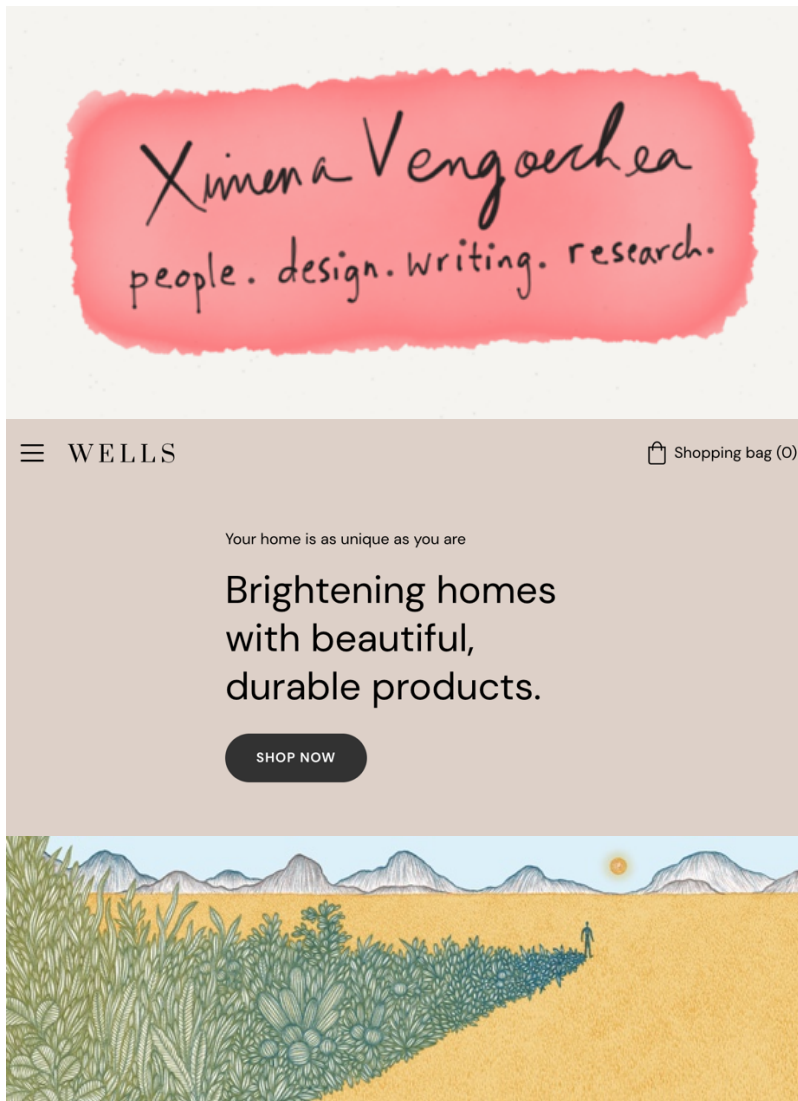

**Bill Blevins**  
Contract Hire

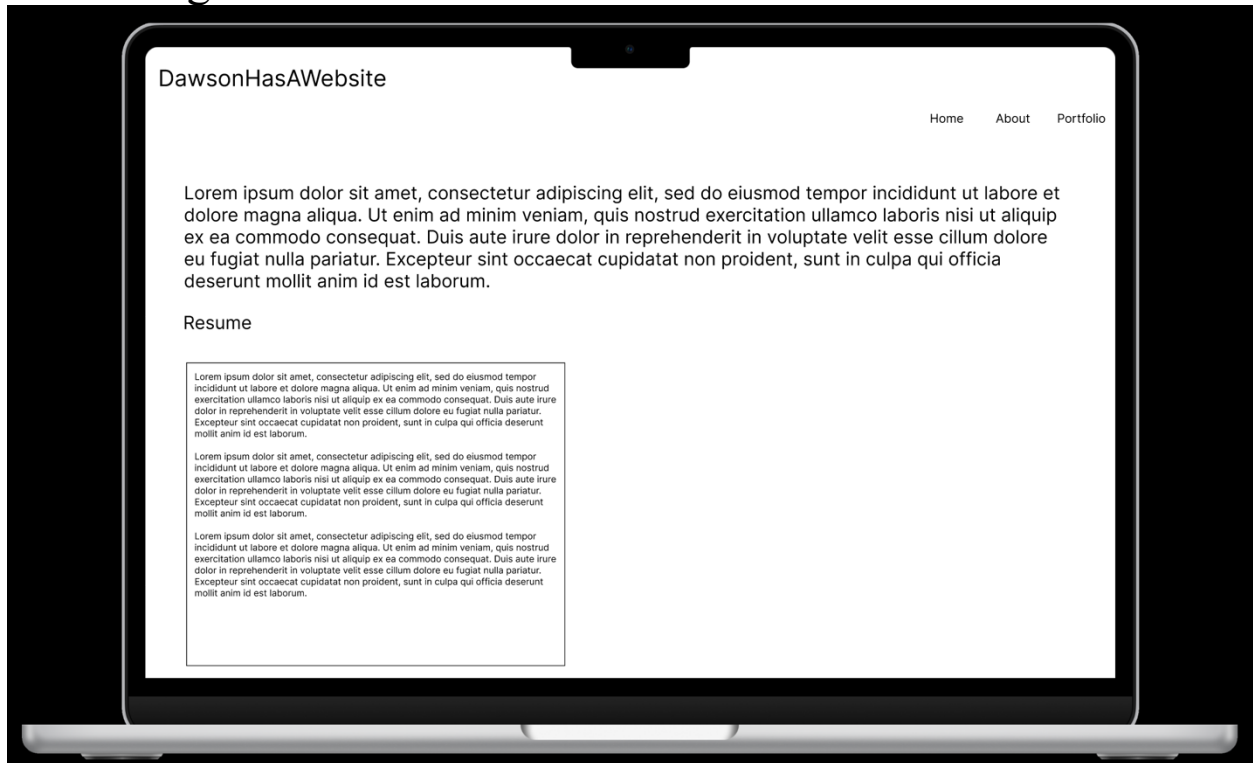

**Stacy Jones**  
Prospective Customer
